6. Please explain your rating above regarding academic integrity of AI use for this submission. Why? (Write in 2-3 sentences) *

I believe unless used maliciously, AI content generators can be a great tool to aid in understanding concepts and does not oppose academic integrity if used appropriately.

8. Please explain your rating above about AI's impact on your learning for this submission. (Write in 2-3 sentences, input N/A if you have not used any) *

I used AI content generators to aid my thought process as I used them properly and I believe they can be great tools to support my learning. Also I used to learn how to use new tools like Lucidchart

10. List all the **AI tools** AND the **specific prompts** you used for this submission (input N/A if you have not used any) *

I used ChatGPT and most of the prompts were straightforward like "what to include in DFDs" or "create an image to represent a tech stack" to gain a basic understanding (if previously lacking) to

have a starting point to let my thoughts flow and to not have to use stock images instead tailor them to my specific needs.

11. How confident were you in AI's responses that you received? *

- ☐ Confident
- ☒ Somewhat confident
- ☐ Neutral
- ☐ Somewhat not confident
- ☐ Not confident
- ☐ I did not use AI for this submission

12. How did you ensure the answer you received from the AI tool was correct? (input N/A if you have not used any) *

I made sure they aligned with what I have been taught in class, what I read in the assigned text and what I already know. Some things were way off base as one would expect but the AI content was merely a starting point anyway so it didn't matter too much if it was incorrect.

13. Did you at any point abandon using AI tools and seek other resources? Explain your answer. *

What made you abandon using the AI tool? Were you more successful using other resources? Input N/A if you have not used any

The clarity for how to make DFDs was lacking even after using AI and the visual aspect to using certain softwares was vital to understand how to use them so AI couldn't help there either.

15. Please explain your ratings above, especially if you have AI tools for "other" types of work. *

I used it to generate images that were included in presentation slides. Image generators were used to tailor graphics to my liking without having to search through stock images. Except for that AI

tools were just used to cut out the noise in my thoughts and help create concise and to-the-point answers.
